PROGRESS REPORTS ON TECHNICAL PROGRAMMES

Corrigendum

1. Nutrition: Double burden of malnutrition, page 18

The fourth sentence of the third paragraph currently reads: Micronutrient deficiencies continue to be a public health problem throughout the Region, with 21 million pregnant women and 97 million women of reproductive age suffering from anaemia. The sentence should read: Micronutrient deficiencies continue to be a public health problem throughout the Region, with one in four pregnant women (3.6 million) and one in five women of reproductive age (94.1 million) suffering from anaemia.

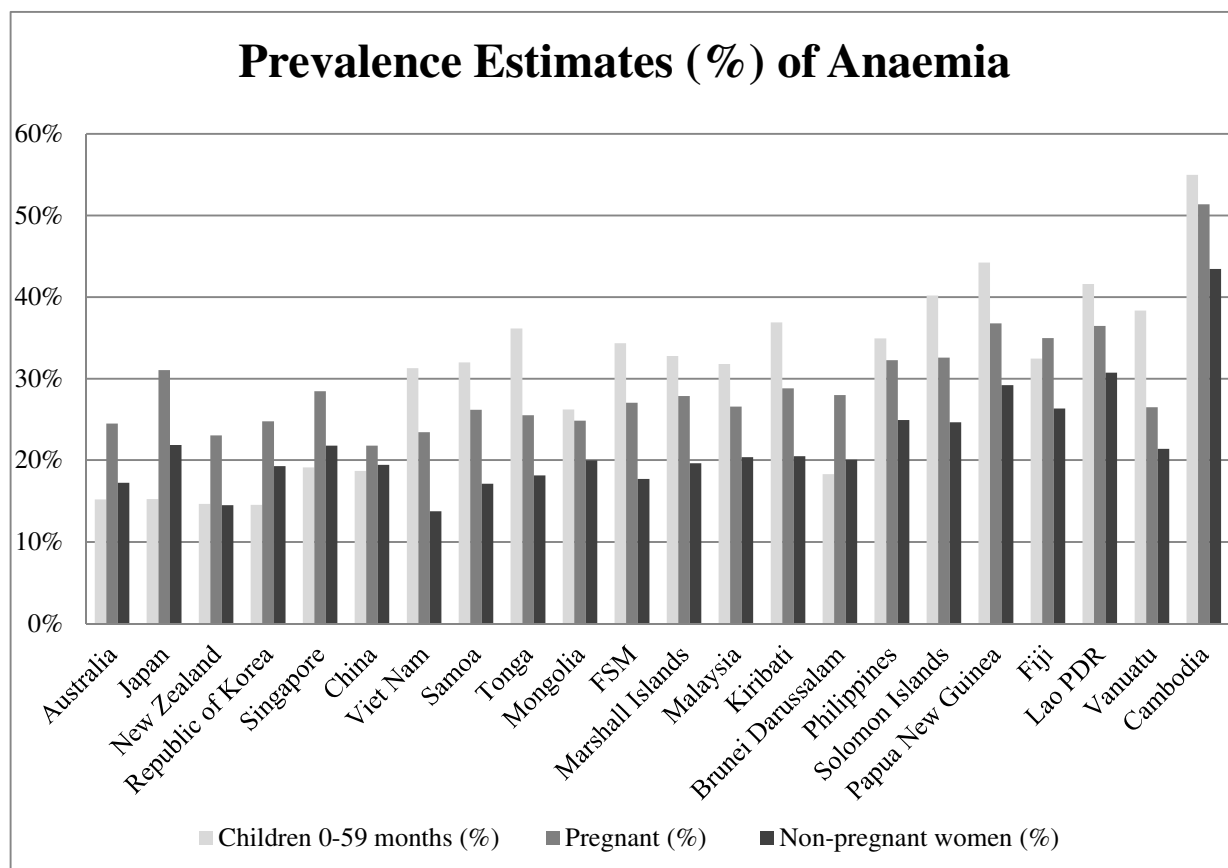

2. Annex 1, page 41

The third sentence of the first paragraph should read: Anaemia remains an unresolved issue affecting one in four (3.6 million) pregnant women and one in five (94.1 million) women of reproductive age (WRA).

3. Annex 1, page 66

Figures on anaemia prevalence in high-risk populations in the Western Pacific Region (1995–2011) have been updated.
