

The Regional Committee,

Having considered the report of the Technical Discussions Group, and the recommendations contained therein,

1. AGREES that the time allocated to the discussions during future meetings of the Committee should not exceed three half-day sessions, that the method should allow as much time as possible for group discussions, and that the topic for the next Technical Discussions should be "Leprosy Control"; and

2. NOTES that the topic provisionally selected for the 1958 Technical Discussions is "Methods and Approaches in the Improvement of Vital and Health Statistics".

Sixth Meeting, 13 September 1956
