

The Regional Committee,

Having studied the report of the Regional Director on the facilities available within the Western Pacific Region for the education and training of professional and auxiliary health personnel,¹

1. REITERATES the importance of awarding fellowships for study within the Region;
2. URGES the governments with suitable training programmes for foreign students to submit full information on such programmes;
3. REQUESTS the Regional Director to prepare a consolidated statement for distribution to Member governments in the Region.
